

KEAx NEH Entrepreneurship Day

- diving into Sustainability and Diversity

9-15, 11 November 2021 followed by bubbles and networking
Guldbergsgade 29N, 2200 Copenhagen N

KEA and Nordic Entrepreneurship Hubs (NEH) are hosting a day dedicated to entrepreneurship. We will dive into the important topics of sustainability and diversity and explore their effects on the work of startups, our ecosystem and the future of entrepreneurs and stakeholders.

Our keynote speaker Le Gammeltoft and prominent guests like Vækstfonden, Louise Bech Junge and Martin Justesen will take us through four sessions about:

- How do we promote startup environments that embrace diversity?**
- How can circular business models be a catalyst for innovation in your startup?**
- How do you match your startup with crowdfunding opportunities and impact?**
- How can the student hub and incubator programs support sustainable development and innovation among startups?**

The sessions will be followed by a panel discussion and a fair, where you can meet startups who work with sustainability and diversity themselves. Lastly, you will be served bubbles and get to mingle.

The day is part of the Global Entrepreneurship Week.
